

Volunteers

Volunteer Services

We currently have urgent need volunteer opportunities (as of September 22, 2017).

Please find them under the **Volunteer Roles** tab below.

Volunteering provides many lifelong experiences and memories. It can help you become involved in your community by sharing your knowledge, talents and interests with others. Volunteering allows you to meet new people and network with others. Your involvement can help you gain practical work experience, explore new career options, and provide you with references for employment, scholarships or bursaries.

We are looking for volunteers who can work independently with minimal supervision, who are energetic and enthusiastic, enjoy working with people and helping others, and are serious about making a regular volunteer commitment to help us meet our Mission, Vision and Values.

Volunteering with any organization is a big responsibility. Please review all of the information provided to decide whether this is a good time in your life to make such a commitment.
