

Surgical Services

Surgical Services

Hours of Operation:

24 hours a day, 7 days a week

Location:

Surgical Services is located on the second level of the hospital.

Woodstock Hospital Surgical Services Department is comprised of a highly skilled team of nurses, physicians and support staff who provide progressive surgical techniques with modern equipment. Woodstock Hospital has five operating rooms and two Endoscopy suites. Our team provides 24-hr access to both elective and emergency surgeries. The services we provide include Gynecology, General Surgery, Ophthalmology, Urology, ENT (ears, nose, throat), Orthopedics and Dental surgeries for adults and pediatrics. Our services also include a Pre-Admit Clinic, Telephone Consult Clinic and Anesthetic Consult Clinic for preoperative patient assessment. The Surgical Services Department ensures that whether you are going home on the same day your surgery is done, or being admitted for a longer stay, we do everything we can to make sure our patients have the best possible experience.

Pre-Admit Clinic

Prior to day of surgery, most surgical patients will either be booked for a preoperative nursing assessment in the Pre-Admit Clinic in person, telephone or through video conferencing. You may also have your health history reviewed with an anesthetist. Patients receive an information booklet from their surgeon prior to their visit and are asked to complete a preoperative questionnaire. A pharmacy student will also review your medications during your appointment. Diagnostic testing will also be arranged with your surgeon, if required. Surgical Daycare

Surgical Daycare is the unit that prepares patients for surgery or Endoscopy procedures and also discharges patients who are going home the same day as surgery and endoscopy procedures.

Operating Rooms

A team of physicians, nurses and support staff provide comprehensive 24-hour surgical care. Woodstock Hospital has five operating rooms and provides both Elective and Emergency surgery. Our dedicated team pride themselves on providing patient focused care.
